OFTO ASSET SOLUTION

PRIORITY ISSUE: LIFETIME ASSET ASSURANCE

OFTOs are under strict obligations to deliver near perfect availability of assets. Penalties & incentives encourage production and performance beyond expectation. A growing portfolio of offshore assets, in differing sizes and distances, can result in maintenance inefficiency and unplanned outages disrupting power production.

SUPPORTING YOUR SUCCESS

CWind provides an integrated solution for the mechanical, electrical and access services needed for the operation and maintenance of OFTO assets. Our teams will look after platform, transformers, cable systems, switch gears ensuring they're structurally sound and protected both now and in the future.

EVERYTHING YOU'LL NEED FROM ONE SOURCE

Our OFTO Asset Solution assists our clients in the completion of scheduled and non-scheduled O&M works. Combining our mechanical and electrical, inspection, testing and certification services with a comprehensive wash down, repair and corrosion protection service, you can rely on us to take the headache out of OFTO maintenance.

- Transformer inspection & oil sampling
- Battery impedance testing & inspection
- PAT, lighting, perimeter testing
- Corrosion protection
- Quarterly/annual inspections & OEM maintenance
- HVAC1 servicing
- Substantial fleet of CTVs
