STATUTORY INSPECTIONS WRAP

PRIORITY ISSUE: **SEASONAL TASK – COMPLEX DEMANDS**

Offshore wind farm operators must undertake extensive annual statutory inspections and certifications. Coordinating these multiple certification cycles on your offshore assets can be a challenging and laborious process and unless a comprehensive and coordinated inspection plan is in place, can be both costly and inefficient.

SUPPORTING YOUR SUCCESS

CWind's Statutory Inspections Wrap provides all the necessary elements in one 360° solution, increasing WTG availability and removing in-house task overload, whilst reducing interfaces, costs and the overall inspections duration.

EVERYTHING YOU'LL NEED FROM ONE SOURCE

Let one of the best in the business complete all your annual statutory inspection needs on a single or multi-year contract, managing the entire lifecycle, providing a full range of inspection teams. We project manage, plan and execute the campaign and ensure no area of the turbine and your assets is out of reach.

- Statutory turbine safety inspection campaigns
- Service, inspection & load testing for cranes, safety & access equipment
- Visual & non-destructive testing inspections
- Qualified and competent in rope access & confined space entry
- A fleet of multi-purpose CTVs to ensure efficient & comfortable access
