

HARGROVE III
E V E N T S

Web Site Wireframe

Version 5

preloader animation

Introduction Animation

approximately 30–45 seconds

Description:

1. Open with burst of light before crystal platform expands and sits in position.
2. New logo rises from platform in stages; **symbol, Hargrove III, events.**
3. Platform expands further and moves downward as logo rises higher.
4. Taglines reveal and fade out vertically between platform and logo:

Event Design / Opening the Mind's Eye

Event Management / Inspiring the Team

Event Production / Mastering the Details

5. Tagline reveals and fades out; **Event Design | Management | Production.**
6. Symbol changes to **green** and slowly moves toward audience.
7. Logo engulfed with burst of light before leading into next section.

Introduction Animation: Corporate Overview

duration undetermined

Description: Moderately paced animation.

1. Cut to image sequence; imagery zooms in, slides in, pushes other imagery in and out, fades in and out.
2. Same as Corporate Philosophy section but with abridged **Event Success:**

Personalize & Customize

- a. Identify and develop the creative vision components.
- b. Environments, Expectations, Inspirations, Connections.

Environments

- a. Maximize the use of the existing environment.

Expectations

- a. Insure the value of proven production techniques.
- b. Experiment with new and visionary event elements.

Inspirations

- a. Personalize the event experience.

Connections

- a. Motivate and create an emotional response.

Event Value

- a. Identify services that are fundamental and indispensable.
- b. Produce efficiently and effectively.
- c. Meet goals and objectives.

3. Exit section with a burst of light. Next section is landing page.

Landing Page

featuring main site navigation

Description: Main seven navigation spheres: Event Design, Event Management, Event Production, Gallery, Corporate Philosophy, Biography/Awards, Contact.

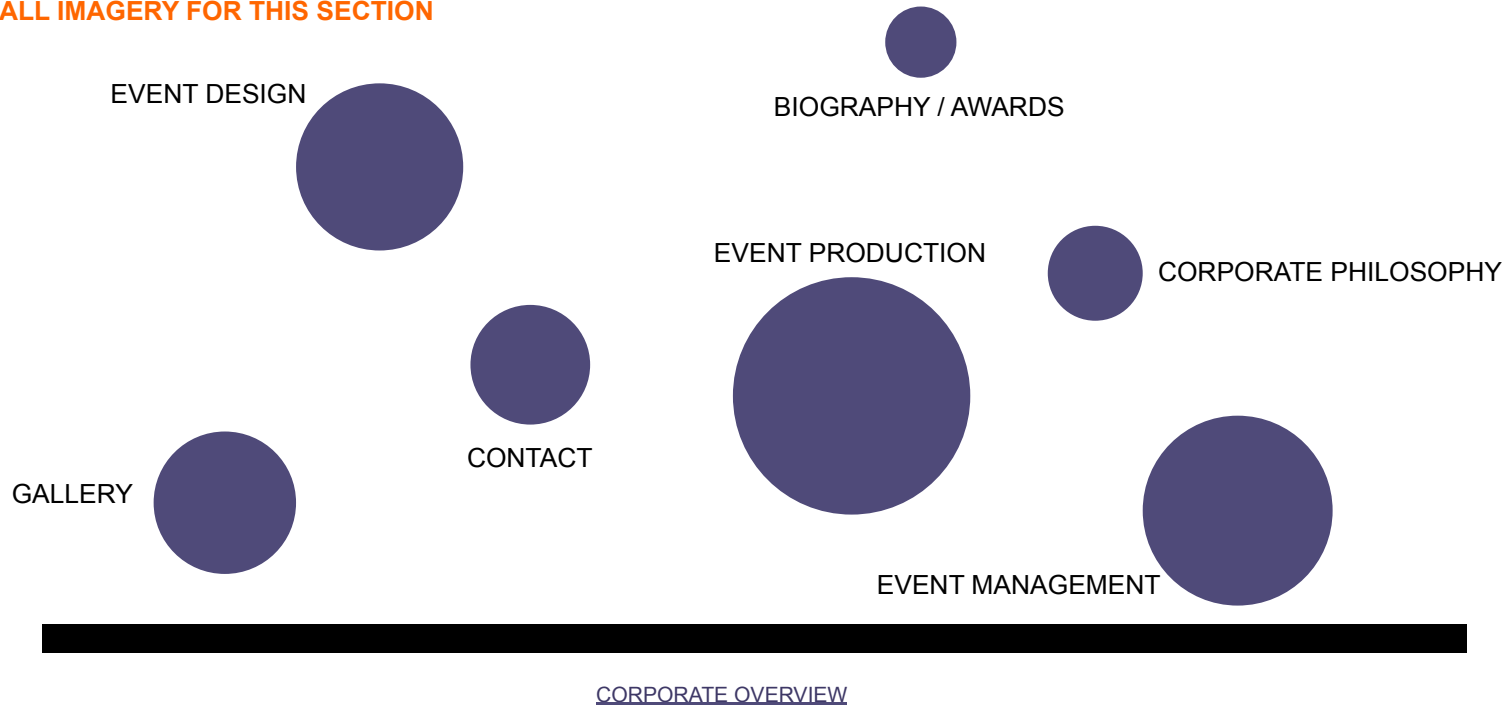

Crystal platform expands and spheres rise from platform.

Spheres glow and display text label on mouse over.

When clicked, platform and spheres rotate towards audience.

Audience zooms in on and goes through platform to view selected content.

Decorations & Set Design

Our decorations provide the visual imagery to convey the format and style of your event, and set design and graphics to provide the focal point for the event activities. Selecting the decorative design elements with the greatest impact and value is critical to event success and part of our formula for creating an emotional connection. We accomplish this by the use of fabrics, living artwork, original artifacts and reproduction props, custom furniture and set design, inflatables, fabric tension structures, live plants, greenery, and dance floors. To provide the most memorable and lasting visual impressions we combine three dimensional decorative elements with the latest technology in LCD light panels, computer controlled lighting fixtures, DLP moving light video projection, pyrotechnics, and special effects.

Entertainment

We provide talent booking, management, and production of all forms of Entertainment. We specialize in a wide variety of entertainment that includes headliner performers, variety dance bands, comedians, performing artists, entertainment troupes, character performers, cirque shows, interactive activities, skilled performers, games, and casinos.

We specialize in the seamless integration of the entertainment element into the overall event design and production. Always meeting or exceeding our client’s goals.

Our entertainment concepts range from the most sophisticated and elegant to the most amazing and whimsical. Always fun, impressive, imaginative, and unique.

Technical, Special Events & Staging

We provide design and production of all technical services for events. These services include lighting, audio, video projection, original video production and graphic animation, special effects, lasers, fireworks, and staging. Modern technology provides cost effective visual techniques to bring an event to life with infinite choices of imagery, color, motion, and animation. Our creative and technical design experience provides fantastic effects for product launches, introductions, finales, unveilings, and an array of presentations.

We specialize in integrating the technical equipment into the overall event design so that the visual impact of the equipment is subtle and unobtrusive, yet effective. Technical event success is achieved when complicated technology is transparent, yet the impressions are spectacular and memorable.

Table Design & Rentals

Table design can be a dominant decorative element in many events. We specialize in designing and providing all the components to create unique and memorable settings. These services include floral, custom linen, table centerpieces, plateware, glassware, silverware, chairs, printed menus, and place cards. Rentals include tables, custom bars, screens, coat racks, staging, and dance floor. Our designs range from sleek and contemporary to elegant and traditional.

Catering

Design, management, and production of all catering related services which includes menu design, food station and service planning, catering support services, course timing, seating arrangements, and table and buffet decorations. Our catered events range from a casual barbeque for 20,000 guests to innovative and world class cuisine for a dinner party of 20. Our catering experiences are created using interactive & unique presentation methods in combination with professional and courteous staff. Extraordinary tastes, savory delights, superior service, and impeccable timing are our ingredients for culinary event success.

Tenting

Design, management, and production of all forms of tenting and related services. The selection of the appropriate tent structure is integral to the overall event design. Clear span tent structures with transparent vinyl covers will provide a dramatic environment. This approach combines the best of creative interior design, with the existing exterior venue elements to enhance the scale and grandeur of the event. An alternative approach is the use of softly sculpted pole tents to create a whimsical effect. We capture the intimacy of providing tented events at personal and private venues, and produce impressive tenting for large scale public and corporate gatherings. The challenges of the venue logistics and installation time constraints are met with experience and insight. We provide creative solutions while minimizing the impact to the venue and environment.

Logistics Support

We provide a full range of ancillary support services that are crucial to a successful event. These services are often the last to get attention, but we know from experience they are the foundation of many of the primary event services. These services often provide guests or participants with their first and last impressions.

These services include expert management and production of power generation and distribution, portable restrooms and executive trailers, communications, valet parking, coat check, first aid/safety, trash removal, and security. We know safety, security, health, and comfort are critical to creating a positive and memorable event experience.

Stage Management & Show Scripting

We provide expert stage management of all on-stage activities and supporting special effects, technical services, and set movement. We manage the green rooms, rehearsals, and executive direction of the show production. Our stage managers and production assistants provide the direction and support in a professional and courteous manner for all the on-stage participants and production personnel.

We provide detailed event and rehearsal scripts and minute by minute show timing. Our show directors call the show and provide professional communication across all the different disciplines. Our stage management experience covers the full range of social, corporate events, meeting presentations, corporate theatre, awards, recognition, sports, political, and public and private celebrations.

Event Photography & Videography

Events take weeks, months, and even years to design and plan. Hundreds even thousands of hours are invested in creating events that can be over in days or hours. We provide expert photography and videography to capture the details, highlights, reactions, and memories of your special event. Historical documentation, emotional mementos, and snapshots in time are recorded with precision by professionals that understand style, technique, and the sensitivities of people. These captured moments in time will complete the emotional connection, and record the success in the power of communications, impressions, accomplishments, recognitions, and rewards.

Connections

[Environments](#) | [Expectations](#) | [Inspirations](#) | [Connections](#)

Identify and develop the event experience by using design elements that connect your guests, audience, or participants together, as a group and as individuals. This is accomplished through branding, theming, graphics, and messages that motivate. Relate past experiences with future goals. Enable the individual to believe they are the only ones that exist and they are the center of the activity. When this connection is made, you will create an emotional response that creates event success.

Earl (Chris) Hargrove III
Event Designer & Producer

Chris Hargrove is the President of Hargrove III Events, Inc. His passion for events started at the age of 14 setting up decorations for parties and delivering exhibit equipment for tradeshow in the hotels of Washington, DC for the family business. He worked every summer and most of his free time learning the trade until attending college at the University of Maryland. After graduating with a bachelor's degree in Business Administration he joined the family business full time. Working in operations and production he learned the skills to produce tradeshow, special events, and custom exhibits. He served as Director of Operations, Director of Marketing & Sales, Director of Design, Director of Special Events, and Senior Vice-President over his 26 year tenure in the family business. All of these learned skills created the detailed and intimate knowledge that is required to produce exceptional special events. He created and produced some of the company's largest productions for clients such as the Coca-Cola Company, The Trump & Bally's Casinos in Atlantic City, and the National Republican and Democratic Committees. He also produced many of the area's prominent charities, and celebrity/VIP social events. He expanded and grew the special events division to include the most talented team of designers and producers in the business. The family business earned the reputation of being a leader in the industry.

In January of 2001 Chris Hargrove started Hargrove III Events, Inc. His vision was to create a company that expanded the services he produced to include Event Management and Entertainment. This gave him the ability to provide Event Design, Management, and Production of the entire project and to apply his attention to detail to every aspect of the event. Hargrove III Events, Inc. has designed and produced events in the United States and Hawaii, Europe, Spain, Asia, and the Caribbean. This has enabled the company to travel with the detailed knowledge necessary for working with many cultures and business environments.

Chris Hargrove's inspiration is always the challenge of creating unique and original event designs from a handful of event parameters or even one single idea. His rare experience in design and management of all aspects of events combined with the detailed production of the event services is what makes him so valuable to his clients. His clients know he will always meet or exceed their high expectations. With over 35 years of experience he is honored to be part of an exciting and dynamic industry.
